

THE TECH

VOL. XXVI. No. 6

BOSTON, MASS., MONDAY, OCTOBER 8, 1906

PRICE THREE CENTS

SECRETARY APPOINTED.

Prof. D. P. Bartlett is Made Secretary of the Institute Pro Tempore.

The Executive Committee of the Corporation at its last meeting elected a number of new officers and approved various changes in the staffs of several of the departments.

The most important appointment is that of Prof. Dana P. Bartlett as Secretary of the Institute *pro tempore*. This position is newly created by the Executive Committee and is intended to be one of a purely administrative order. Prof. Bartlett's appointment is that of acting Secretary because the Executive Committee felt that it is wise to leave the question of the final settlement of this important office with whomsoever may be named as President of the Institute. Prof. Bartlett is an alumnus of the Institute of the class of 1886 and is at present one of the professors of Mathematics.

Prof. George C. Shaad, who was appointed Assistant Professor of Electrical Engineering in the place of Prof. Puffer, who has resigned, comes to the Institute from the University of Wisconsin. He has spent considerable time at the Schenectady works of the General Electric Company and comes to the work of the Institute with a wide experience, both in practical applications of his profession and in the work of the teacher as well. Other appointments are as follows:

William Tufts, S. B., assistant in Civil Engineering; E. F. Tomlinson, S. B., and M. A. Mackenzie, S. B., assistants in Mechanical Engineering; W. J. Walsh, S. B., assistant in Physics; Miss Anna M. Cederholm, S. B., assistant in Chemistry; A. B. McDaniell, S. B., assistant in Architecture; George Meister, instructor in Modern Languages; H. T. Kalms, Ph. D., F. C. Mabey, A. M., Ledyard Sargent, A. M., and E. B. Spear, B. M., Research Assistants in Chemistry.

FRESHMAN FOOTBALL.

Hard practice begins today for the Freshman football squad in preparation for the early games. All men, especially those who have not been reporting regularly, are expected to be present on Tech Field this afternoon at 4 o'clock. Coach McCarthy is anxious to get his material in shape before the game with Somerville High, Wednesday, when the season opens. A game with Worcester High School at Worcester on November 10 has been added to the schedule.

HOCKEY TEAM MEETS.

An informal meeting of candidates for the Hockey Team was held at 1 o'clock on Friday, in 11 Rogers, Wilkins, '06, presiding. Twelve men were present. Captain Gould, '07, and Manager Kelly, '09, spoke on the necessity of a proper rink for practice, and also of the steps to be taken to obtain it. Before the close of the meeting Wilkins, '06, was unanimously re-elected President of the Hockey Association.

HAVE GOOD RUN.

Twenty-five Men Cover Five Miles in Hare and Hound Run in Melrose.

Twenty-five men were out for the Hare and Hound Association's second run of the season which took place Saturday afternoon from the Melrose Y. M. C. A. The trail was a good one for five miles with Ellis, '08, and Belcher, '08, acting as hares. They ran the course in fifty minutes, while the hounds took five minutes longer. Howland, '08, finished first, with MacGregor, '07, Huber, '10, Christiansen, '07, Chapman, '07, and Callaway, '08, behind him in the order named.

The association will hold a short, easy cross-country jog from Technology Field next Wednesday afternoon at 4 o'clock and men interested in cross-country running are urged to come out.

MANDOLIN CLUB TRIALS.

The preliminary trials for the Mandolin Club were held in 31 Rogers Friday afternoon. Eighteen new men reported. No one will be dropped until after the first rehearsal, which is to take place Monday afternoon at 4. Many of the new men are experienced players from school and college clubs, so that there should be no trouble in making up a good club. The candidates were as follows: Mandolins, Gott, '10; Longyear, '10; Bonvouloir, '10; Benton, '10; Webb, '10; Burroughs, '08; Price, '10; Friedman, '08; Coleman, '08; Coleman, '09; Hall, '09; Barnes, '10; Whittle, '09; Munyoz, '10. Guitars, Childs, '10; Sparrow, '10. Mandolas, Richardson, '10; Nauss, '08. Violin, Schobinger, '10. Further trials will be held after the rehearsal Monday, so that all who were not present Friday may have a chance to report.

GAME CALLED OFF.

The Sophomore-Brighton High football game scheduled for last Saturday was called off Saturday morning, as the Brighton team has disbanded. 1909 will play Somerville High at Somerville this afternoon and the team will leave Rogers at 3 o'clock.

The schedule for the rest of the season is as follows: Oct. 10, Roxbury at Franklin Field; Oct. 13, open; Oct. 20, Mechanic Arts at Tech Field; Oct. 24, Waltham High at Waltham; Oct. 27, Bridgewater High at Bridgewater; Oct. 30, Newton High at Newton; Nov. 3, Lowell Textile at Lowell; Nov. 6, DeMerritt at Tech Field; Nov. 10, open; Nov. 16, 1910 at Tech Field.

Mr. and Mrs. William Henry Doble of Elm Street, Quincy, announce the engagement of their daughter, Rachel Mary, to John Holland Leavell, Tech '07.

BRITISH EMPIRE ASSOCIATION.

There will be a meeting of the British Empire Association on Tuesday, October 9, at 1 P.M. in 16 Rogers. All members are requested to attend.

AGAINST CLASS FIGHTS.

Dean Burton Speaks to Sophomores, Expressing Faculty's View of Subject.

The Sophomore Class listened to an address by Dean Burton, and afterwards held a class meeting to appoint an Election Committee and collectors of dues in the various courses last Friday at 1 o'clock in Huntington Hall.

Prof. Burton said that the press of Boston, many of whose reporters are college men, seem to wish to class Tech with the other colleges. There is a difference nevertheless, a greater seriousness, resulting from the fact that the men have made up their minds as to their career, which is not the case with classical colleges.

The Faculty tries to treat the students as men and the students as a rule prefer to be so treated. The upperclass men discountenance "scraps" between classes, particularly where the one man or a few men are overpowered by force of numbers.

The Dean assured the class that the Faculty and Alumni look forward to see the Sophomore class win Field Day, even if this sympathy is not openly expressed. The interest of the Faculty in the inter-class sports is shown by the unanimous vote for a half holiday for Field Day, Nov. 16.

"We do not want you to be different from others. We do not wish to criticize neighboring colleges, but I am sure we do not wish you to try to rival Tufts or Boston University."

The class adopted the following amendment to the constitution: "Failure to pay class dues on or before Nov. 20, or class assessments within one month of levy will result in suspension from membership until such dues or assessments are paid."

The Election Committee is as follows: R. H. Allen, chairman, Weinhausen, Sherman, L. H. King and Hutchinson.

Collectors of dues in the various courses are: I, Stevens, Nisbet; II, R. H. Allen, Luening; III, Robinson; IV, Miss Luscomb; V, Miss Blake; VI, Cook, Godfrey; VII, Ellis; X, Stevenson; XI, Morrill.

MAKE LONG EXPEDITION.

During the past summer Professor Johnson of the Department of Geology conducted an expedition through portions of New Mexico, Arizona, and Utah, which was supported by contributions from both the Institute and Harvard, and from friends of the two institutions. Dr. H. W. Shiner of the Institute and C. H. Decker, a graduate of the Columbia University School of Mines, were members of the party.

The party started to work in southern New Mexico and worked from there through Arizona and Utah, studying all the prominent geological formations in those states. The trip lasted from early in June to September 10. A detailed statement of the studies made in connection with the expedition, including reports on several special problems, will be published in the course of the winter.

CALENDAR.

MONDAY, OCTOBER 8.

3.00 P.M. Football, Sophomores vs. Somerville High at Somerville.
4.00 P.M. The Track Candidates Report at Tech Field.
4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.
4.00 P.M. Meeting of THE TECH Board in 30 Rogers.
8.00 P.M. Technology Club's Annual Meeting at the Club Rooms.

TUESDAY, OCTOBER 9.

1.00 P.M. British Empire Association Meeting in 16 Rogers.

WEDNESDAY, OCTOBER 10.

4.00 P.M. Football, Freshmen vs. Somerville High at Somerville.
4.00 P.M. Football, Sophomores vs. Roxbury High at Franklin Field.
4.00 P.M. Senior Nominations Close at the Cage.

FACULTY NOTICES.

Third Year Option.—The class in 18th Century Literature will meet Monday at 10 and Friday at 4, instead of Saturday at 12.

Memorandum of Tabular View Changes to take effect on and after Monday, Oct. 8, except as may have been already arranged.

FIRST YEAR.

Section 1, Trigonometry transferred to Mr. Carter.

Section 4, Algebra to Mr. Passano; Trigonometry to Mr. Miller Wednesday at 10, Saturday at 9; Chemical Recitation Wed. at 11.

Section 7, a new section will be formed numbered 23, meeting Professor Tyler in Algebra Monday and Friday at 11 in 11 Rogers.

Section 8, Algebra Friday at 2, instead of Saturday.

Section 9, Algebra to Mr. Carter Tuesday at 9, Thursday at 10; Trigonometry to Mr. Passano Monday at 11, Wednesday at 11; Freehand Drawing Thursday at 9; Chemical Recitation Wed. at 10.

Section 10, Algebra Tuesday at 10.

Section 13, Algebra to Prof. Woods Wednesday at 10, Saturday at 11.

Section 14, Algebra Wednesday at 9; Freehand Drawing Thursday at 9.

Section 21, Trigonometry Tuesday at 12.

SECOND YEAR.

Differential Calculus:

Course I, Section 3, to Prof. George without change of hours.

Course II, Section 1 A to Dr. Roeber, attending the lecture with Prof. George Wednesday at 9. Section 2 B, Friday at 9 instead of 12.

Course III divided, Section A remaining with Dr. Moore; Section B meeting Mr. Passano without change of hours.

Course IV transferred to Prof. George.

Course VI, Sections 1 B and 2 B transferred to Prof. Bailey without change of hours. Section 1 A Fridays at 9 instead of Thursday at 2.

Course XI transferred to Mr. Miller Monday at 2, Wednesday at 12, attending the Saturday lecture with Prof. Bailey, or meeting Mr. Miller Saturday at 12 in weeks when the lecture is omitted.

THE TECH

Monday, October 8, 1906.

An optimist is a man who never stops to pick over the Tech Lunch corned beef hash.

It seems necessary, after all, to call the attention of the Freshmen to the "Rules for Freshmen" which were passed by a Freshmen joint committee from Rules. 1903 and 1904 and which it is their duty to observe. THE TECH had hoped that the new men would be loyal enough to their new *Alma Mater* to put aside all prep school insignia without having to be requested to do so, but the request has to be made and THE TECH leaves it to the Sophomores to see that the following rules are enforced:

No Freshman shall wear any hat, cap, sweater, jersey or sleeveless shirt bearing any preparatory school numerals, initials or insignia of any variety. However, sweaters or jerseys bearing such insignia may be worn inside out, or with the insignia on the back of the wearers. Preparatory school pins, if worn at all, should be worn so as not to be in sight.

Perhaps no man in this country has had better opportunities for determining the qualities in young men that make for success and observing those that tend toward failure than has President Eliot, whose keen eyes have watched the careers of so many Harvard men. At a dinner last spring, President Eliot spoke on "The Elements of Success in the Engineering Profession," and a statement of them by so competent an authority is of more than usual interest to Tech men.

Among the elements the speaker mentioned endurance—"a strong nerve and an ability to work hard and consistently"—and impressed his hearers with the importance of hard work. "A man succeeds in

proportion to the diligence of his work" is his word, and he insists "that a man should work strenuously—he should work his hardest. He must work intensely. That is the road to success and happiness. All great men have worked intensely. It does not mean however, that a man should overwork. He should work as hard as he is capable of working, but not harder than his body is capable of enduring."

President Eliot advised that "the successful engineer should cultivate his abilities in one subject, no matter how limited. By the time a man is 35 he should know one subject, at least, thoroughly. That is one of the surest and one of the most positive roads to success. It is true of all professions, not alone of engineering, but it does not mean that the engineer is a narrow man. He should have broad sympathies and know many subjects, but of one he should be master." He advises that the young man "should cultivate zeal, and should volunteer to do disagreeable jobs—a trait that recommends a man to an employer." As an engineer generally has to oversee men, the speaker suggested he should cultivate abilities that will recommend him to his subordinates. This is wise counsel. There is no greater mistake than to think that the qualities of a slave driver are necessary to get the best work out of men in any occupation.

NOYES BROS.Washington and
Summer Streets
Boston U. S. A.**RECORD ATTENDANCE TUESDAY.**

The Tech Union Lunch promises to be very successful this year. The attendance increased steadily, with the exception of Saturday, from the day of opening to last Tuesday, when the high-water mark of 167 was reached. Wednesday and Thursday, while not quite equal to the record were but little under it. The attendance to date has been as follows: September 26, 55; September 27, 82; September 28, 111; September 29, 65; October 1, 142; October 2, 167; October 3, 162; October 4, 164.

Williams opened this year with about 150 Freshmen.

The largest Freshman class in the history of the institution has entered the University of Pennsylvania.

President Arthur T. Hadley, of Yale, will lecture in Berlin in the winter of next year in connection with the scheme of exchanging professors between Germany and the United States.

The annual championship tournament of the Intercollegiate Golf Association will be held at Garden City from October 16 to 20. Williams College has been admitted to the Association, which also includes Princeton, Yale, Harvard, Pennsylvania, Columbia, and Cornell.

POETRY AS IT IS.

In a recent issue of *Harper's Weekly*, Professor Pearson of the English Department comments amusingly on poetry as he finds it understood and appreciated by the schoolboy. It is probable that some of the amusing incidents recited had their occurrence at Tech, and if such is the case it is not hard to see in a lyrical Tech Show a certain virtue as an educational force. Evidently some of the students used to have the music of poetry dinged into their ears until their view of what it is undergoes some slight change at least. The fact that poetry is held in light esteem by the student, and that he judges the position of all by his own standard is evident from a statement made by one, to the effect that "the more educated a people get the more they talk of science and business. They have no time to bother with poetry."
